The school is located in Barnersville within Greater Monrovia.</p> <p>The Principal reported that the school will be expanding the JEW Memorial Library in the near future to accommodate more students.</p>
Programs for the Library			CLTEF needs to work with ZLPS administration to provide leadership and direction towards programs that benefit the students via the library. CLTEF knows that this will help students become engage and empower. We can model programs after the Olathe Public Library and the Johnson County Public Library.
